If the client name does not appear they are not registered with this service. Please enter client details using the "Recruit Client" service if their name does not appear

NRT Protocol
To download the NRT protocol click here.

The patient name box is cross referenced to the "Registration" service. As you start to type a patients name, you will be able to select a registered patient. If the person doesn't appear, then they are not registered to the pharmacy and you need to complete the "Registration" service for the patient.

Complete the rest of the form using data from the voucher.

To make the supply please select the products given. To do this start to type the product in the box. It will search from a list.

Good search words are (needs to be 4 characters) "Patch", "Gum", "Lozenge" etc.

Please enter the number of packs supplied. This information will be used to calculate payment.

Lastly please indicate whether you have taken any prescription charges and if so, how many.

Click "Save" and that's it.
