

Easy Guide Delivering the Stop Smoking service

The Stop Smoking Service on PharmOutcomes is designed to allow you to register a client and to then follow them through the service. This keeps all the data in PharmOutcomes and also allows the commissioner to pay for your activity, as well as being able to access quit data.

Smoking Cessation Stage 1 - Recruitment (Preview)

Stage 1 - Register the client

1. Name
2. Date of Birth
3. Gender
4. Ethnicity
5. Post Code

You also need to add some information about the client to include "Occupation Status" as this leads to payments.

Stage 2 - Pre Quit Assessment

1. Type the client name into the box and it will cross reference with your client registered
2. This service then looks at the history of the patient.
3. This is where the quit date is recorded. This can be up to two weeks after the assessment if a client requests.
4. Please remember to record if a client is pregnant, has any mental conditions, as payments are currently made for these cohorts.

- Consultation notes

Relevant notes
Use this box to record any consultation notes

- NHS Charges collected - Appt 1 only

FP:10 charges due?
NB: Clients only pay ONE charge per item ONCE per quit attempt
 No of charges paid

Stage 4 - 4 Week Evaluation

This service is vital to complete to enable the commissioner to gather the 4 week quit data and also to enable you to be paid for achieving a 4 week quitter.

If a CO reading is taken, payment will only be made for the quitter if their reading is <7

Supply of NRT on the 4th week can also be made using this service.

Stage 5 - Lost to follow up

If the patient has left the service, please record it on this stage.
