

How to check how many Clinical pathways you have completed each month

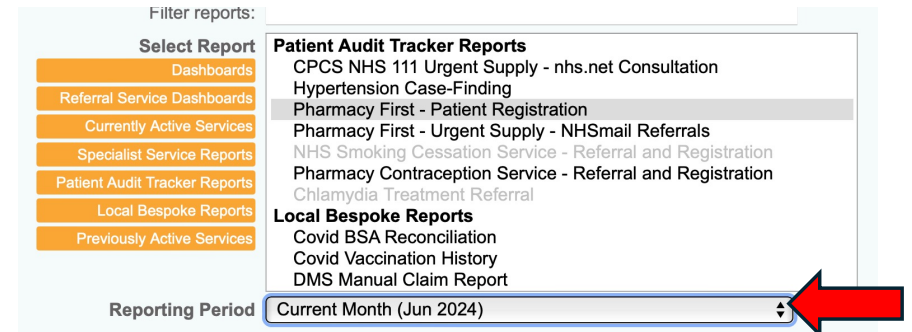

STEP 1 – Go to reports on PharmOutcomes and then scroll down to Provider individual reports. Scroll through the reports until you get to Patient Audit Tracker Report and choose Pharmacy First – patient registration

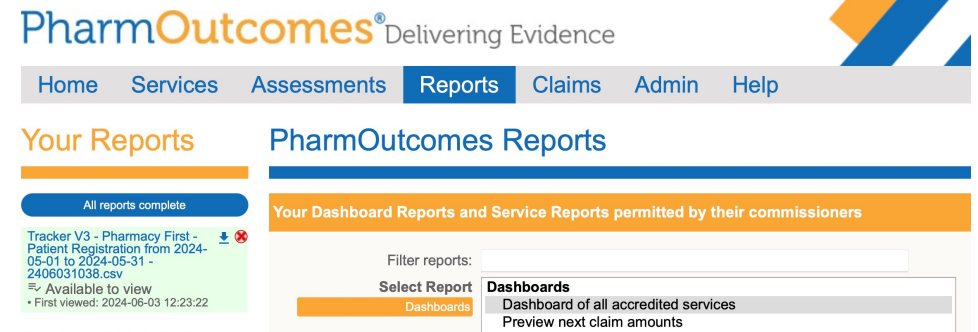

STEP 3 - Scroll to the bottom of the page and click the “Examine Audit” button.

Examine Audit

STEP 2 - Go to Reporting period and choose what report you want to run. In this example I am going to run the current month i.e. June 24

STEP 4 – Your report should appear at the top of the page on the Left- hand side

How to check how many Clinical pathways you have completed each month

STEP 5-Once the report has downloaded you can filter it on the column called referral type (should give you a choice of minor illness or clinical pathway) to see how many clinical pathways your pharmacy has completed in the time period selected
